
MISSION REPORT

SANCTUARY WATERS

25 SEPTEMBER 2011

WORDS AND IMAGES: ROBERT RITCHIE

FBP went for a run on the 25th Sept 2011 at Sanctuary Waters. It was a small run as 4 out of the 8 of us are on FI/FO, deployment, but still nice to back and going after the Winter. The fleet was the usual faithful of HMS Mersey and Cornwall with General Wolfe and Richard Killick brought along his HMAS Fremantle (not running) and HMAS Moresby hulls. For the first time since we have sailed there, Sanctuary Waters was full of muck, which must have come in with all the heavy rain of late and the non functioning sprinkler system, still the ships needed to be hosed afterwards.

GENERAL WOLFE comes in for shore bombardment.

GENERAL WOLFE's distinctive and unusual configuration.

CORNWALL out and about for the first time following a long refit.

HMS MERSEY overhead.

Almost had to take a hose to her after the run.

HMAS MORESBY. It will be nice to have a non-grey ship, and one with teak decks too.

HMS CORNWALL on a dark sea.

GENERAL WOLFE overhead.
